

Bio-C

Pure Sodium Ascorbate with Bioflavonoids

Bio-C is a palatable, easy-to-administer powdered source of supplemental vitamin C combined with bioflavonoids. Sodium ascorbate has a saltier, less sour taste than ascorbic acid and is a potent, water-soluble antioxidant. This form of vitamin C is naturally buffered and thus reduces gastric distress commonly associated with high doses of straight ascorbic acid. Bioflavonoids help maintain capillary integrity and act as antioxidants.

4.2 oz (113 g) Powder

1 Scoop (1/4 teaspoon) Contains:

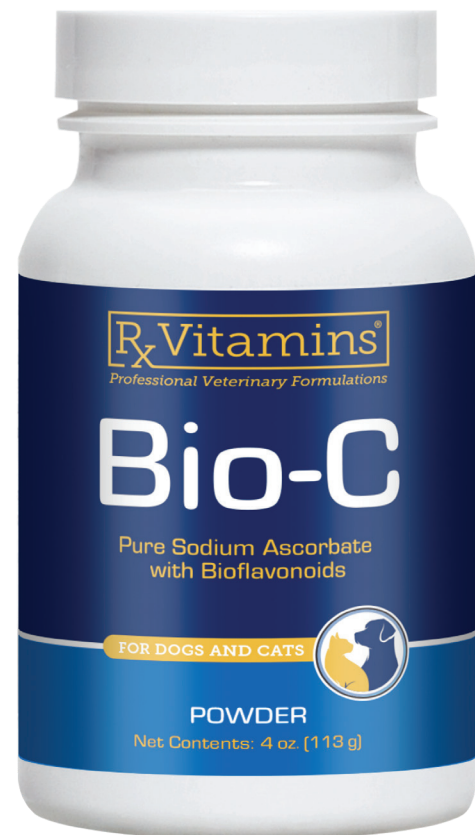

Vitamin C (as sodium ascorbate) 500 mg
Lemon Bioflavonoids* (10% flavonones) 400 mg

* Not recognized as an essential nutrient by the AAFCO Dog Food Nutrient Profiles. (All quantities are minimum quantity unless otherwise noted)

Ingredients: Lemon Bioflavonoids, Sodium Ascorbate Powder

Directions For Use:

1/2 scoop per 10 lbs. of body weight twice daily, or as recommended by your veterinarian.
