

Formula CV

Supports Normal Heart and Vasculature Functioning

Formula CV combines the cardio-protective qualities of hawthorn berry along with other important nutrients that support the structure and function of the cardiovascular system. Taurine is the dominant amino acid found in heart muscle and carnitine plays a critical role in the transport of long-chain fatty acids in to the mitochondria. Potassium and magnesium play important roles in the contraction and relaxation of the heart muscle. Vitamin E provides vital antioxidant protection and, with selenium, helps protect the integrity of blood vessels.

90 Capsules

1 Capsule Contains:

Mineral Carbonates	
Hawthorn Berry Extract	
(standardized to 2% vitexin)	200 mg
L-Carnitine (as L-carnitine tartrate)	100 mg
