Our Advantage

VDI lab reports for vitamin tests are the gold standard. Included with all Essential Vitamin Reports you'll get:

Patient-Specific Dosing Guidelines ✓

When values are low, VDI reports provide patient-specific dosing guidelines to achieve sufficiency. Guidelines are based on multiple parameters unique to the patient. No two patients are the same.

Recommended Supplements ✓

VDI partners with industry leaders in supplementation to provide recommended products that are proven safe and effective.

Affordability ✓

VDI vitamins tests are priced affordably for all wellness and acute care patients., and can be shipped using inexpensive Dry Serum.

The Right Tests for the Right Decisions[®]

VDI is about providing solutions, not numbers on a page. We provide patient-specific dosing guidelines, recommended proven supplements, and a complete Test 'n Treat approach to essential vitamins.

About Us

VDI is a leading veterinary blood diagnostics provider advancing the importance of essential vitamin testing in companion animals. With our Test 'n Treat approach to nutrition we are providing veterinarians and their clients with complete solutions to correct nutritional deficiencies and improve animal health.

These tests are further integrated into a number of VDI's advanced diagnostic and wellness tests for complete patient management, both healthy and sick.

Our Services

- Cancer Diagnostic Blood Tests
- GI Disease - differential blood testing
- Wellness Testing, including cancer screening
- Nutritional Testing for both healthy and acute care patients
- Joint Disease testing (OA, DJD, etc)
- Allergy Testing
- Heavy Metal & Nutritional Metal Fur Testing

Context-Aware Results

VDI reports are detailed and context-sensitive, giving you time to do other things

Patient-Specific Guidelines

Each animal is unique. As should their individualized dosing reports

Not just results Solutions

Actionable steps are provided on all essential vitamin reports. No more guessing what's next
