- Allergies

All the above plus:

| |
|--|
| ALT |
| ALP |
| Cortisol |
| 125 Allergens: 72 Food, 53 Environmental |

Already performed an abdominal ultrasound?

The AGI panels incorporate the findings from your ultrasound to improve the overall accuracy of the results. When used in conjunction, you may eliminate the need for biopsy altogether.

Our Advantage

VDI offers the most complete GI diagnostic panel available. GI disease is complex and our panel sorts it all out for you - saving time and money.

- Simultaneous Disease Detection ✓
- AI-Driven Pattern Recognition ✓
- Context Aware Interpretation ✓
- Ultrasound Finding Integration ✓
- Signalment Integrated Results ✓
- Low Sample Volume Required ✓
- Inexpensive Sample Transport ✓

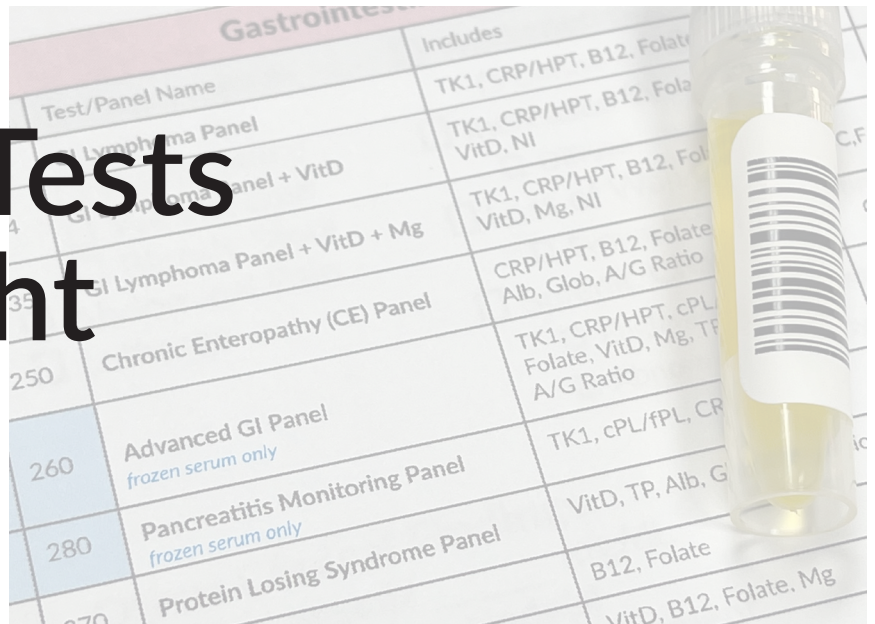

The GI Patient

There are many GI diseases which often have overlapping pathology, making differential diagnosis challenging. Take care of deciphering the case with one blood panel - instead of piecing it together through multiple labs and multiple submissions.

The Right Tests for the Right Decisions®

VDI is about providing solutions, not numbers on a page. We provide context-sensitive interpretation with test & treat solutions to some of your most common diagnostic and wellness challenges.

About Us

VDI is a leading veterinary blood diagnostics provider advancing diagnostic interpretation with intelligent, AI-driven reporting and interpretation.

Our expanding portfolio of tests is focused around disease-specific applications that incorporate an array of relevant tests to improve the diagnostic workup, and to manage patients with specific clinical presentations. One Lab, Real Solutions.

Our Services

- Cancer Diagnostic Blood Tests
- GI Disease - differential blood testing
- Wellness Testing, including cancer screening
- Nutritional Testing for both healthy and acute care patients
- Joint Disease testing (OA, DJD, etc)
- Allergy Testing
- Heavy Metal & Nutritional Metal Fur Testing

Context-Aware Results

VDI reports are detailed and context-sensitive, giving you time to do other things

Patient-Specific Solutions

VDI is a leader in Test & Treat solutions with patient-specific guidance

Not just numbers Answers

If the results aren't clear, we'll work with you to find answers. Answers, not numbers.
