

NutriGest

Helps Support Proper Bowel Health

NutriGest supplies important phytochemicals and essential nutrients, such as glutamine and n-acetyl D glucosamine that help restore and maintain normal mucosal epithelial cell function in the gastrointestinal tract as well as benefit mucosal barrier function. FOS, a prebiotic nutrient, nourishes and fortifies the friendly intestinal bacteria.

90 Capsules | 4.65 oz (132 g) Powder

1 Scoop (1/2 teaspoon) / 2 Capsules Contain:

Probiotic Cultures (a blend of six most bioactive strains)	500 million viable cells
L- Glutamine (free form amino acid)	200 mg
N-acetyl D glucosamine (from chitin)	150 mg
