

Ultra EFA

The Most Concentrated and Versatile EFA Formula Available

Ultra EFA is a highly potent, bioactive, fatty acid lipid blend featuring a high-grade marine lipid concentrate and liquid lecithin. Marine lipids are rich in the Omega 3 fatty acids EPA and DHA. Lecithin is a natural source of phospholipids. The antioxidant properties of rosemary and vitamin E effectively prevent lipid peroxidation of the delicate fatty acids. The Ultra EFA formula features high levels of EPA and DHA which enhance the efficacy of the formula.

8 fl. oz. (236 ml) | 16 fl. oz. (472 ml)

1 Teaspoon Contains:

Marine Lipid Concentrate	3000 mg
